

Carolina Region Empirical Economics Day (CREED)

**Dubois Center at UNC Charlotte Center City
320 E. 9th Street, Charlotte, NC 28202
October 25, 2024**

BACKGROUND ON CREED

CREED brings together researchers of applied microeconomics in and near the Carolinas to discuss research, encourage collaboration, and foster a strong applied microeconomics community in the region. CREED rotates between institutions in the Carolinas, and was previously hosted by the University of South Carolina, Clemson University, College of Charleston, University of North Carolina at Charlotte, University of North Carolina at Chapel Hill, and University of North Carolina at Greensboro.

CREED is planned and overseen by a steering committee that includes Devon Gorry (Clemson), Marie Hull (UNC-G), Chris Mothorpe (CoC), Jeremy Moulton (UNC-CH), and Kelly Vosters (UNC-C) and Lindsey Woodworth (USC). It was founded by Dan Jones (now at Pitt but previously at USC) and was originally named South Carolina Applied Micro' Day (SCAM'D).

LOCATION

The conference will be held at the Dubois Center at UNC Charlotte Center City. The entrance is on E. 9th Street. Check-in will be on the main floor. Then, you will take the elevators to the 5th floor, where breakfast will be. Sessions will be on the 5th floor (rooms 501, 502, 504) and 6th floor (room 606).

Parking is self-pay; the closest parking lot is at 422 E. 9th Street. Download the Park Mobile app and select zone #96422. This is a gravel lot at the corner of E. 9th Street and N. Brevard Street; the Dubois Center is across Brevard Street from this lot.

There is no particular hotel that we recommend, given that there are many hotel options in the Charlotte area that vary in price, amenities, and proximity to the conference (which will be at our Center City campus).

SCHEDULE AND MODERATION

Presentations will be 20 minutes to allow for discussion with the audience and timely transitions to the next speaker. The last presenter in each session will keep time for the earlier presenters, and the first will keep time when the last presents.
